

Session 4	Start-ups/SMEs looking for finance - pre-seed/angel/seed funding
Pitch Title	Unlocking biobased aromatic molecules at scale
Company	Linium Biochemicals
Speaker	Ludovic Sinet
Keywords feedstock	Lignin, Lignocellulose
Keywords technology	Green chemistry
Keywords End-Product	pharmaceutical & active ingredients, aromas, polyols, polyphenols, adhesives
Abstract:	
<p>Linium Biochemicals develops a portfolio of active ingredients and biomaterials for the pharmaceutical, cosmetic and polymer industries. With a scalable and highly selective lignin depolymerization process, Linium offers aromatic molecules, including both monomers and oligomers.</p>
